MILUNA

Industrial IP65 luminaire. High quality lens optics and tempred glass diffusor. Top quality SMD LED modules with colour consistency MacAdams 3, extensive portfolio of lumen ranges, CCTs and spectra. Variety of drivers: standard EVG on/off DALI and wireless controlled as MasterConnect on request. Built-in occupancy & daylight sensor available to allow significant energy savings and wireless connectivity. Mounting directly on any type of ceiling or suspended. Body is made of aluminium. Standard colour RAL 9003M, other colours on reguest. Variety of beam angles, lumen outputs and drivers allows to use this luminaire in different types of lighting projects.

Luminous flux & Luminaire Power tolerance up to 10%. System power consumption depends on components used. Luminous efficacy depends on type of LED's, electronics, optics and diffusor. The most up to date technical parameters can be found on our website and in database of LDT files.
